

POLLUX SUSPENSION

by Jan Pauwels

Pollux looks structured but still harmonious. Modular placed LED circuit boards and tiny metal rods are the only two basic elements of this light fixture. They give the lamp its structure and shape. The shape is totally irregular and asymmetrical. The circuit boards have leds on both sides. 2/3 of the light is going downwards and 1/3 is going upwards.

DIMENSIONS	LIGHTSOURCE	FINISH	TYPE.NR
L60 cm23.6 inch	232x led, 12V/0.6W,	Nickel	11-9206-1
